You bring the place.
We handle everything else.

02
ARRIVAL, SORTED

A guest's first moment decides the review. That is why arrival is never improvised.

- Arrival guide with photos of the door, the front desk and the lift, so nobody hesitates when they step out of the taxi or cross the bridge.
- A message the day before with the location, times and directions, in the guest's language.
- Optional code lock or a coordinated key handover, with no waiting on the sidewalk.
- An honest description of the place and the area: we would rather say it up front than explain it in a review.

03
HOW WE WORK

I
We talk
Fifteen minutes on WhatsApp. Tell us about the place and how you run it today.

II
We assess
We review the place and your listing and send you, in writing, what it can earn. Free.

III
We set up
Photos, listing, pricing, messages, check-in and cleaning, ready in a week.

IV
You get paid
Airbnb and Booking pay you directly. We invoice our percentage with the monthly report.

The listing stays in your name: we join as co-hosts and, if we ever part ways, you get full control back.
